Get Ready for Earth Day with Lily® Sugar'n Cream®

Just take one look around you and you can't deny that green is the color of the season. It's only fitting that Earth Day is just around the corner. Right in the middle of Spring, with life blooming all around us, we take the opportunity to get together to share our respect for the Earth and its bounty.

It's not easy being green - but it can be fun! We've got some solutions to help you waste less and save more. Instead of using disposable items, make them last by making them with [Lily® Sugar'n Cream®](#)! It's washable and gets even softer with every use. Handmade dishcloths are a great way of reusing materials, but there are loads of other things you can do. The best thing about being green (besides saving the planet, of course) is that you get to save money. Making reusable items with [Lily® Sugar'n Cream®](#) is a great way to have fun while saving money and being good to the Earth.
